PROVIDENCE.

THE GREATEST INVENTION OF THE AGE

IS THE

COLD WATER

SELF-WASHING

SOAP.

No boiling of water before you can commence to wash; no boiling your clothes after they are washed and rubbing the holes with steam; no blueing required to make your clothes look nice and white; no washboard or machine required to remove the dirt and wear out your clothing. This Soap will do the work in one half the time, and do it better in Cold Water than any other Soap, with all the hot water and machine that can be used, and WITHOUT THE SLIGHTEST INJURY TO THE GARMENTS.

For washing Woolens, Prints, and any fabric where other soaps injure the colors, this leaves them clean and bright as new. For cleaning Jewelry, Silver and Plated Ware, Door Knobs, Paint, &c., by merely washing in the soap there is no equal to it.—Try it once, and you will use no other soap. Tell your Grocer that you want the Patent Cold Water Self-Washing Soap, made by R. E. Dwelly, 426 Eddy street, Providence, R. I., whose name will be on every bar and wrapper.

You raise the handle—water comes with ease,
Bells, have we, and ones that'll ring,
Am't to your door your servant bring;
Keys, we have not, without number—
Well fit them to without a blunder;
Skates we sharpen so you need not fall,
This pleases the children both great and small,
And now kind friends don't forget the place
For the BIG KEY is looking you in the face.

The Old Fashioned Mother.

Thank God some of us have an old fashioned mother. Not a woman of the period, enameled and painted with her great chignon and curles, and bustle; whose white jeweled hands never felt the clasp of baby fingers; but a dear, old fashioned, sweet voiced, mother, with eyes in whose clear depths the love light shone, and brown hair just threaded with silver, lying smooth upon her faded cheek. Those dear hands, worn with toil, gently guided our tottering steps in childhood, and smoothed our pillow in sickness; even reaching out to us in yearning tenderness, when her sweet spirit was baptized in the spray of the river. Blessed is the memory of an old fashioned mother. It floats to us now, like the beautiful perfume from some wooded blossoms. The music of other voices may be lost, but the entrancing memory of hers will echo in our souls forever. Our faces may fade away and be forgotten, but hers will enter in our souls forever. Other faces may fade and be forgotten, but hers will shine on until the light from Heavens portals will glorify their own.

When in the fitful pauses of busy life our feet wander back to the old homestead, and crossing the well worn threshold, stand once more in the low quaint room, so hallowed by her presence, how the feeling of childish innocence and dependence comes over us, and we kneel down in the molten sunshine, streaming through the open window—just where long years ago we knelt by our mother's knee, lisping "Our Father." How many times when the tempter lures on us has the memory of those sacred hours that mother's words, her faith and prayers, saved us from plunging into the deep abyss of sin. Years have filled great drifts between her and us, but they have not hidden from our sight the glory of her pure unselfish love.

Cold! Colder!! Coldest!!!

The telegraphic reports show the thermometer as follows in various parts of the country:

Poughkeepsie,	4 degrees below zero
Buffalo,	6 "
Boston,	6 "
Philadelphia,	9 "
St. Paul,	10 "
New York,	10 "
Washington,	12 "
Lowell,	16 "
Belfast, Me.,	17 "
Cleveland,	17 "
Toronto,	17 "
Rochester,	20 "
Lewiston,	20 "
Bangor,	24 "
Chicago,	25 "
Mt Washington,	45 "

This will do for the present.

GOOD NEWS FOR A NEWPORTER. Hon. Pardon W. Stevens will be pleased to learn that his fishing business is so profitable. After reading the following item from the *General Advertiser* of Providence, Hon. John D. Dennis will doubtless find it convenient to look to the case at once, and see that the Government is not defrauded of its just due.

"But who is the man that stands most prominent in the business of trapping fish? Why he is the Honorable the Lieutenant Governor of the State, Pardon W. Stevens. Mr. Stevens as we learn, is the largest owner or one of the largest owners, in the business, and is making, as we are informed, from ten thousand to fifteen thousand dollars annually by it."

Items.

Plattsmouth, Nebraska, has newly discovered marble and granite quarries.

The German relief fund sent from New York amounts to $105,538.

Peanut venders in Washington have to pay $21 a month for the rent of a curb-stone.

It is reported that a lady residing in the Tremont House recently sent a check for a thousand dollars to the Consumptives' Home, Boston.

The splendid conservatory of Jardin des Plantes, Paris, which cost $600,000 has been destroyed with its rare exotic plants.

Captain Kerr of the Royal Navy, who has been many years on the Newfoundland coast, thinks it will be impossible to repair the cabin before spring.

The Holland testimonial fund now amounts to $12,000, and will be raised to $20,000. Fechter and Miss Leclercq will appear on Wednesday in the charitable cause.

A Chillicothe farmer saw a stranger tearing down his rail fence, and hailed him to know the reason. The reply was that he was suddenly seized with the shakes and was holding on to the fence for support.

A raid with mounted troops, just made in the mountain region of Tennessee, resulted in the destruction of seven illicit distilleries and about 15,000 gallons of mash. Eleven other stills were found but as they were not running they could not be molested. The raid occupied eight days.

The prospects for the completion of the ice harvest are the very best. Nearly all of the houses north of here are over half full. Ten days more will complete the work.

The ceremony of the public unveiling and reception of Vinnie Ream's statue of Lincoln will take place in the Rotunda of the capitol on Wednesday evening. Arrangements will be made for the accommodation of members of Congress and high officers of the government and their families and other invited guests. The remainder of the space will be open to the public. It is the expectation of Miss Ream that many Americans from various parts of the country who saw the statue in its progress towards completion in Italy will be present. Speeches will be delivered by Senators Morrill of Vermont, Trumbull and Carpenter, and Representatives Banks, Cullom and Garfield. The statue will be unveiled by Justice Davis of the United States Supreme Court. Its permanent place is not yet definitely determined, but for the present it will remain in the Rotunda.

A dashing young beau who had a sweetheart in the country, was delighted a few days since to welcome her father at his place of business. By way of his impressing a due sense of his future father-in-law, he "showed him around," and during the walk the old gentleman becoming "dry," desired information as to the best place to get a toddy. The young man innocently answered that he had heard it could be obtained at the barrooms, but as he never indulged himself, he could not say. He agreed, however, to show the old man to one, on condition that he was not to be asked to drink. The bar-keeper attended to the wants of his companion, and then turning to our friend, said: "No use to ask him if you take—you always drink gin!" at the same time setting out a bottle of that fluid and a pint goblet.

Saturday evening while the eastward bound train on the Central Pacific Railroad was stopping at Alta Station, near the summit of the Sierra Nevada Mountains, and the passengers and also two mail agents, who had left the mail car locked, were at supper, the car was opened by false keys, and registered letters and a package of $10,000 in greenbacks taken without attracting the attention of the guard in the next car. The mail bag was subsequently found near the car, ripped open and rifled. The mountains are covered with snow, and it is hardly possible the robbers can escape.

The total amount the naval appropriation bill specifies is $10,633,000, being over $5,000,000 less than the amount called for by the Secretary of the Navy. About $700,000 is appropriated for the torpedo, a new branch of the naval service, $900,000 of which is for the construction of two iron plated torpedo boats: $101,000 is allowed for patent hydrostatic arrangements for raising the turrets of the monitors, and the same amount in part payment for the great repeating telescope now constructing. The bill is the special order for Tuesday.

The Monitor Mutual Fire Insurance Company of Boston, is reported by the Insurance Commissioner to have $1,011,000 at risk, and to have $2,720 28 total assets to meet $13,029 08 liabilities, including the amount needed to reinsure. A receiver will probably be appointed to wind up the affairs of the company.

About Home.

LECTURE.—Don't forget the lecture at the Thames street church this evening.

NEW MARKET.—John H. Irish has opened a new market on the corner of Spring and Touro streets where he will be glad to see his friends.

THE STEAMERS.—Neither of the Sound boats made the passage last night on account of the storm. We were therefore without the usual New York mails this morning.

PRUDENT FORESIGHT.—The late Thomas S. Stanhope had a policy of $5000 on his life in the Mutual of New York. We hear that the sum has already been paid by the Company through Postmaster Coggeshall, the local agent.

SUDDEN DEATH.—The friends and acquaintances of Edward Thurston, whose residence is in Meeting street, were startled yesterday by the news of his sudden death. He was engaged at work on a house on Webster street, apparently in his usual health, when at about noon he was taken in a fit which resulted in death at three o'clock. He was about 51 years of age and well known in the city.

THE WEATHER.—The present cold term provokes comparison with the past. Our townsman, Capt. Zenas L. Hammond, has favored us with extracts from the record which he has kept for many years, from which we learn that the coldest day in 1852 was December 18th, when the mercury stood at 8 degrees above zero. In 1863 it went down to 2 below on the 14th day of February and the next lowest point was on the 13th of March when it stood at 5 above. In 1864 it was February 17th when it again went to 2 below, and the morning following was one degree colder still. In 1865 the lowest point was reached on the 13th of February when the thermometer stood at 5 above. In 1866, January 8, it stood at 10 below in the morning and at 10 above at night, making a difference of 20 degrees during the day. In 1867 the coldest day was January 4th, when it stood at 4 above, which was also the lowest point reached in 1868, when the temperature was the same February 23 and March 4. In 1869, 8 above was the lowest point reached and that was on Friday the 5th day of March. The winter of 1870, as all will remember, was remarkably open. On the 9th of January it stood at 18 above, February 23d 10 above, March 4 and March 25th, 20 above and December 30th, 12 above. January 19, 1871 it stood at 9 above which was the coldest this season. Mr. Hammond reports the thermometer at his place as at zero yesterday morning, though at other points in and about the city it was considerably colder. This record will show that the temperature at Newport averages several degrees warmer in winter than in inland cities, as well as several degrees colder in summer.

TO-MORROW EVENING.—J. B. Booth announces an entertainment at the Opera House to-morrow evening. The particulars will be found in the appropriate place.

THALSON.—This new play comes off at the Opera House this evening. It is highly spoken of in the Providence papers where it has just been presented with great success. Mr. John Murray appears again, and this fact alone will tempt many to brave the perils of the weather and be present.

Obituary.

Died of Consumption in this city December 28th 1870, Mrs. Grace Patterson Scott, wife of Capt. Henry D. Scott, aged 38 years.

Mrs. Scott was born in Carlisle, Cumberland County, England. She came in early life to this country, and at the time of her death, had for years been an earnest and consistent member of the Thames street Methodist church in this city. Both as a woman and a christian she was above reproach, respected and loved by all who knew her.

Of her family relatives she leaves one brother in Russia, and two sisters, one in England the other in Australia, but none on this side of the Atlantic. She leaves two children, the eldest being three years of age.

She departed in peace and unwavering hope, realizing the sublime and glorious truth, "The Lord is my Shepard I shall not want."

"Happy the Spirit released from its clay,
Happy the Soul that goes bounding away,
Singing as upward it hastes to the skies,
Victory! Victory *I homeward I rise*".

Newport R. I. Jan 20th 1871.

Fall River.

The *News* says the attendance at the Reading Rooms of the Y. M. C. Association has largely increased since the removal into the new and elegant rooms in Flint's Block. There was a perfect jam there on Saturday evening.

The First Baptist Church has voted unanimously to invite the Rev. Daniel C. Eddy, D. D., of Boston, to become their pastor.—The salary is to be $2,500, with the parsonage.

The thermometer at Slades Ferry went down to 8 below zero during the cold snap.

GENERAL ASSEMBLY.

January Session at Providence.

Senate.

MONDAY, Jan. 23.

No Quorum present.

House.

Mr. Gorman introduced an act recommending a convention to frame a new constitution for the State. It was referred to the Judiciary Committee.

The name of Avis A. Brown of North Kingstown was changed to Avis A. Spink.

The Narragansett Bay Fishing Act was then taken up. It was discussed at great length but no action was taken.

Washington despatches say there seems no doubt at present but that there will be an extended session of the 42th Congress.—The friends of the San Domingo annexation assert that if the Commissions do not return in time to present their report to the present Congress, a strong effort will be made by the President and his friends to influence the session of the coming Congress until the matter be settled one way or the other.

TELEGRAMS.

POPULAR INDIGNATION AGAINST TROCHU AND DUCROT.

FUEL AND FOOD SUPPLIES.

NEW YORK, Jan 23.

Paris advices say all the trees on the Bois de Boulogne and Vincennes are consumed for firewood.

A fancy Bazaar is established by the wives and families of Government officers for the benefit of the poor.

The cry of treason is already raised against Trochu and Ducrot, and both will have to flee for their lives after the surrender.

Considerable supplies of secreted provisions are being ferreted out of private cellars and garrets.

LONDON, 21st—5.30, P. M.

The bombardment of Longwy is vigorously continued, and the town is on fire.

The Prussians have imposed a requisition of 40,000 francs upon the people of Yvetot and Havre, as a punishment for the sympathy displayed by them for the French cause.

VERSAILLES, 20th, via LONDON, 21st.

Under cover of a dense fog, to day, the French troops were again massed near Fort Mont Valerien, but nothing further was attempted. The Prussian position at Montretout was taken by surprise by the French, yesterday, and carried, but was subsequently re taken by the Prussian north division. The total German loss in both affairs was twenty officers and two hundred men. The prisoners taken by the Germans say that there will be other attacks upon the investing lines, but assert positively that the National Guard will not fight.'

LONDON, Jan. 21.

A dispatch from St. Quentin says that the railway station was stormed by the nineteenth Prussian regiment, and that the town was afterwards occupied. Ten thousand French troops were taken prisoners, of whom two thousand had been wounded. Six guns were among the trophies of the victorious Germans.

A despatch from Arlon says that the Prussians are rapidly occupying the approaches to Longwy.

There is little news from Paris, though advises to the 18th have been received. The damage by the bombardment is stated to be not extensive, and only a few persons had been killed.

Gloomy Words from Paris.

LONDON, Jan. 23.

Dispatches from Paris dated on Saturday last, have been received here. They represent the feeling among the inhabitants as very gloomy and depressed, in consequence of the unsuccessful results of the late sorties. It is estimated that the feeling against the administration of Gen. Trochu grows stronger daily, and a popular outbreak, which will result in the overthrow of his authority, may be looked for at any moment.

WASHINGTON DISPATCHES.

WASHINGTON, Monday, Jan. 23.

The Income Tax.

The ways and means committee did not meet this morning; but they expect to reach a vote on the income tax to morrow. It is believed that a minority will vote for repeal. Mr. Schenck was one of the strongest opponents of repeal, and Mr. Orth, who fills his place, though formerly in favor of the tax, is now reckoned for repeal.

The Governorship of the District.

Applicants for the governorship of the District of Columbia are already numerous, in anticipation of the speedy passage of the House bill by the Senate.

Personals.

Logan is back from Illinois and was in his seat to day. He was congratulated by a large number of members.

Ferry of Michigan is also back looking worn by his Senatorial struggle.

NEW YORK.

After Detective Sampson had started for New York from New Orleans with the great bond forger and robber, Van Eaton, a New Orleans officer boarded the train with a habeas corpus and demanded that Sampson return to New Orleans with his prisoner. This Sampson refused to do. At the next station at which the train stopped the Southern officer informed the crowd that a Northern Sheriff was illegally carrying off a Southern man, and called on them to rescue him. Detective Sampson produced his revolver and declared he would shoot any man who dared attempt to molest him. The crowd let him alone.

This action was repeated by the Southern officer at every station until the Mississippi State line was reached, and with equally fruitless results. Placing his prisoner in a baggage car, in order to attract as little attention as possible, and catching what sleep he could on the way, Sampson reached New York yesterday with the prisoner without further trouble.

GREAT FIRE IN MILFORD MASS.

One Woman Burned to Death.

BOSTON, Jan. 23.

A fire in Milford, this morning destroyed the Bay State and Alhambra blocks, including eleven stores, and dwellings in the upper portion; also Fishers Stables, and seven horses. Mrs. Newton, occupant of one of the dwellings was burned to death.

Attention is called to the card of Cable Screw Wire Boots and Shoes. These goods claim a superiority over both pegged and sewed work.

A Wise Woman.

When I was a girl my mother taught me every variety of domestic work, leading me on from simple to difficult processes in this manner. "My daughter," she would say, "now, if you will make this shirt very nicely, you shall make next a shirt for your father, and he shall know that every stitch was set by your fingers." How eager I was to learn the mysteries of shirt-making, and how patiently my mother taught me to set the stitches in the bosom, to baste in the gussets, to stroke the gathers! How many button-holes I worked on old scraps of muslin before she could quite trust me to make those in the bosom and wristbands. But that shirt was my apprenticeship to the needle, and since then dressmaking, millinery, tailoring, even, has had no terrors in my imagination, for if I could make a shirt well, I could learn to make everything. In the same way she stimulated my industry and ambition in culinary matters. "When you have learned to wash and wipe the dishes very nicely," she would say, "I will let you make some biscuit." Then I was permitted to rise a step higher to the dignity of bread-making, the concoction of cakes and pies. I really thought in those days that I loved to do house-work, to cook and sweep and iron, but since then I have found out that it was my mother's admirable management that made pastime of drudgery. *Exchange.*

Domestic Miseries.

John Paul, in *Every Saturday*, gives a brief chapter from his housekeeping experience, as follows:

"The number of Bridgets and Gretchens that we have had in our little housekeeping experience is incalculable,—the kitchen has vibrated like the pendulum between the two. That our domestics should be foreign involves a contradiction of terms, but the fact remains. Why it is, perhaps some of our political economists can explain. We find some minor points of difference between the nationalities, but the general result is about the same. Bridget is ready and willing, her readiness to take offence and her willingness to undertake the performance of culinary operations of which she is totally ignorant, pass comprehension. If you ask her could she cook an elephant properly, her reply would be, 'Shure, yis, she had cooked many of them in the old counthry.' I'd try her with an elephant some day, were it not physically as well as mortally certain that we'd have to eat it without a remonstrance or be discharged on the spot.—Gretchen, on the other hand, is slow and sure. We find her slow to comprehend what we want done, and sure to do the very thing she has been carefully enjoined against doing."

The difference between a barber and a theatrical agent is, that one is a head scenter and the other is sent a head.

"You have a very striking countenance," as the donkey said to the elephant when he hit him over the head with the trunk.

"How long do you wear a shirt?" severely asked an inspecting officer of a soldier. "Twenty eight inches, sir," was the respectful reply.

A rich man who was injured by being run over, exclaimed with great wrath: "It isn't the accident I mind, that isn't the thing; but the idea of being run over by an old swill cart, that's what makes me mad."

"Miss Brown, I have come to learn how to tell fortunes;" said a young man to a brisk brunette: "just give me your hand, if you please." "La, Mr. White, how very sudden you are: well, go and ask pa."

"What would our wives say if they knew where we are?" said the captain of a down east schooner, when they were beating round in a thick fog, fearful of going ashore. "Humph, I shouldn't mind that if we only knew where we are ourselves."

An old farmer says that the best way for a city chap who wants to become an agriculturist is to hire out to a farmer for a couple of years, and then marry his daughter, who knows how to raise chickens and make pantaloons.

It is said of a popular lecturer that on announcing to his wife, who had her own opinion about his talents, that he was going to lecture at Sheffield, the lady replied, "At Sheffield! I'm so glad; I always hated those Sheffield people."

An irascible old gentleman was taking with sneezing in the cars lately. After sneezing in a most spasmodic way eight or ten times, he arrested the paroxysm for a moment, and extracting his handkerchief, he thus indignantly addressed his nasal organ; "Oh! go on—go on—you'll blow your infernal brains out presently!"

Scene at a meeting at Preston, England: "Tak thi hat off," said one fellow in the crowd to another in front of him. "What for?" "Why, aw cannot see." "Well, replied the other, "if aw tak my hat off thou'll be worse off than ever. My yare (hair) is thirteen inches long, an' it stans straight up. I've put my hat on to keep it down."

An old bachelor editor thus, in his splice, comments on a recent moonlight incident: "We left our sanctum at midnight last night, and on our way home we saw a young lady and gentleman holding a gate on its hinges. They were evidently indignant at being out so late, and we saw them bite each other several times."

"Hans, when I pay you cash, you charge more than when it goes on the book." "Ya'as; dat is right. You see, I have so much schargo on my book, an I sometimes lose um; an so, ven 'ave a good cash customer, I charge goot price; but ven I put it on my book, I no like to schange so much, so if he never pay um, I no lose so much."

A fascinating youth of Louisville was recently very badly 'sold' by the matron of the Kentucky State Prison, in whose daughter he seemed to evince a very strong interest while travelling in a railroad car. Thinking that the flirtation had continued long enough, she suddenly changed her seat to the side of the young man, and whispered in his ear, 'Sir, you are a total stranger to me; but I think it my duty to warn you of impending evil. That young lady is just out of the State Prison.' A passenger got off at the next station.

The Lesson of Nature.

Torpor is the characteristic of winter. Vegetation dies or falls into a state of trance. The whole aspect of inanimate nature teaches us that there is a paralyzing influence in the air, and ought to teach us that our bodies require an increase of vital power to contend with it. Some of even the warm-blooded animals bury themselves in the earth and remain in a state of partial stupefaction until the season is over, and the elixir of the spring sunshine stimulates their stagnant blood, and restores their vigor. But man, although he feels the influence of the season, can protect himself against its inclemency. He has fuel to warm him externally, and can tone and strengthen his internal organization and endow it with the extra amount of vitality which the circumstances require. Of all invigorants that have ever been recommended for this purpose, Hostetter's Stomach Bitters is the purest and the best. Fortified by the daily use of this wholesome vegetable tonic, the human system may defy the chills and damps of winter in any latitude. Its effect is to promote a brisk and regular circulation of the blood, and arrests at the incipient stage, with almost the slightest tendency to produce fever, it imparts a healthful glow to the surface, and stimulates the excretory vessels to discharge, in the form of gentle perspiration, the morbid matter eliminated from the blood. Thus the system is kept unclogged. Fever and ague, biliousness, indigestion and colic, all of which are the common consequences of the searching damps and low temperature of winter, may be avoided (as well as cured) by a course of this genial tonic and alterative.

Cheerfulness, Beauty and Strength!

You can obtain all these by the use of Robert's Preparations. His Pills will relieve the Stomach and create a cheerful feeling; his Panacea will cleanse the Blood, and thereby beautify the Complexion; and Mr. Bitters will invigorate the Vital powers, and give strength to the Body.

$1,000 reward is offered by the proprietor of Dr. Pierce's Alt. Ext. or Golden Medical Discovery for a medicine that will equal it for the cure or all the diseases for which it is recommended, among which are "Biliousness," or all other Complaints, complicated bowels, impure blood, scrofula in all its forms, Eruptions, Pimples, Blotches, Boils and Sores and Ulcerous Sore Throat, Bronchitis, Consumption in its early stages and extreme as a general debility. Sold by druggists.

No Humbug! No Quackery!—A pint bottle full of Dr. Sage's Catarrh Remedy is prepared for one fifty cent. package, and the proprietor offers $100 reward for a case of Catarrh which he cannot cure. Sold by druggists, or send sixty cents to Dr. R. V. Pierce, 1 3 Seneca street, Buffalo, N. Y., and receive it by mail. A pamphlet free. Beware of counterfeits and worthless imitations. The Genuine has these words, upon the outside wrapper, Dr. Pierce's private Government Stamp with the portrait, name and address, and the words "U. S. Certificate of Genuineness" engraved upon it.

Domestic Miseries.

THE RAPID AND UNIVERSAL POPULARITY OF COLGATE & Co's TOILET SOAPS, is simply due to their excellence. They are conscientiously made of the best and purest materials, and are always what they pretend to be. Ladies are so often cheated in purchasing, that when they find one thing they can rely upon they stick to it.

DR. SCHENCK ADVISES CONSUMPTIVES TO GO TO FLORIDA IN WINTER.

HAVING for the last thirty-five years devoted my whole time and attention to the study of lung diseases and consumption, I feel that I understand fully the course that ought to be pursued in order to cure a laboriously bad case of diseased lungs to healthy soundness. The first and most important step is, for the patient to avoid taking cold; and the best of all places on this continent for this purpose, in winter, is Florida, well down in the State, where the temperature is regular, and not subject to variations as in more northern latitudes. Palatka is a point I can recommend. A good hotel is kept there by Peterman. Last winter I saw several persons there whose lungs had been badly diseased, but who, under the healing influence of this climate and my medicines, were getting well.

One hundred miles further down the river is a point which I would prefer to Palatka, as the temperature is more even, and the air dry and bracing. Melonville and Enterprise are located there. I should give a decided preference to Melonville as it is two miles from river or lake, and it seems almost impossible to take cold there. The tables in Florida might be better, and patients complain at times; but that is a good thing, as it indicates a return of appetite; and when this is the case, they generally increase in flesh, and then the lungs must heal.

Jacksonville, Hibernia, Green Cove, and many other pleasant places in various parts of Florida, can be safely recommended to consumptives in winter. My only reason for saying so here, is that patients are less liable to take cold there than in the cities. It is less cool in temperature, and it is not necessary to say, that, where a consumptive person exposes himself to frequent colds, he is certain to die shortly: therefore my advice is, go well down into the State, out of the reach of prevailing winds and fogs. Jacksonville, or almost any other of the localities I have named, will benefit those who are troubled with a torpid liver, a disordered stomach, deranged bowels, sore throat, or coughs; but, for those whose lungs are diseased, a more southern point is earnestly recommended.

For fifteen years prior to 1850, I was professionally in New York, Boston, Baltimore, and Philadelphia every week, where I saw and examined on an average five hundred patients a week. A practice so extensive, embracing every possible phase of lung disease, has enabled me to understand the disease fully; and hence my caution in regard to taking cold. A person may take vast quantities of "Schenck's Pulmonic Syrup, Seaweed Tonic, and Mandrake Pills," and yet die if he does not avoid taking cold.

In Florida, nearly everybody is using Schenck's Mandrake Pills; for the climate is more likely to produce bilious habits than more northern latitudes. It is a well-established fact, that natives of Florida rarely die of consumption, especially those of the southern part. On the other hand, in New England, one-third at least of the population die of this terrible disease. In the Middle States, it does not prevail to largely; still there are many thousands of cases there. What a vast percentage of life would be saved if consumptives were as easily alarmed in regard to taking fresh colds as they are about scarlet-fever, small-pox, &c.! but they don't. They take cold, and they form a little cold, which they are credulous enough to believe will wear off in a few days. They pay no attention to it, and hence it lays the foundation for another and another still, until the lungs are diseased beyond all hope of cure.

My advice to persons whose lungs are affected, even slightly, is to lay in a stock of Schenck's Pulmonic Syrup, Schenck's Seaweed Tonic, and Schenck's Mandrake Pills, and go to Florida. I recommend these particular medicines, because I am thoroughly acquainted with their action. I know, that, where they are used in strict accordance with my directions, they will do the work that is required. This accomplished, nature will do the rest. The physician who prescribes for cold, cough, or night sweats, and then advises the patient to walk or ride out every day, will be sure to have a corpse on his hands before long.

My plan is, to give my three medicines in accordance with the printed directions, except in some cases where a freer use of the Mandrake Pills is necessary. My object is, to give tone to the stomach,—to get up a good appetite. It is always a good sign when a patient begins to grow hungry: I have hopes of such. With a relish for food, and the gratification of that relish, comes good blood, and with it more flesh, which is closely followed by a healing of the lungs,—then the cough loosens and abates, the coughing chills and sweating fits no longer prostrate and annoy, and the patient gets well, provided he avoids taking cold.

Now, there are many consumptives who have got the means to go to Florida. The question may be asked, Is there any hope for such? Certainly there is. My advice to such is, and ever has been, to stay in a warm room during the winter, with a temperature of about seventy degrees, which should be kept regularly at this point by means of a thermometer. Let such a patient take his exercise within the limits of the room by walking up and down as much as his strength will permit, in order to keep up a healthy circulation of the blood. I have cured thousands by this system, and can do so again. Consumption is as easily cured as any other disease, if it is taken in time, and the proper kind of treatment is pursued. The fact stands undisputed on record, that Schenck's Pulmonic Syrup, Mandrake Pills, and Seaweed Tonic have cured very many of what seemed to be hopeless cases of consumption. Go where you will, you will be almost certain to find some poor consumptive who has been rescued from the very jaws of death by their use.

So far as the Mandrake Pills are concerned, everybody should keep a supply of them on hand. They act on the liver better than calomel, and leave none of its horrid effects behind. In fact, they are excellent in all cases where a purgative medicine is required. If you have partaken too freely of fruit, and diarrhœa ensues, a dose of the Mandrakes will cure you. If you are subject to sick headache, take a dose of the Mandrakes, and they will relieve you in two hours. If you would obviate the effect of a change of water, or the too free indulgence in fruit, take one of the Mandrakes every night, and you may then drink water, and eat water-melons, pears, apples, plums, peaches, or corn, without the risk of being made sick by the use. To sum up, these pills will protect those who live in damp situations against chills and fevers. They are perfectly harmless. They can do you good only.

I have abandoned my professional visits to Boston and New York, but continue to see patients at my office, No. 15 North Sixth Street, Philadelphia, every Saturday, from 9 A. M. to 2 P. M. Those who wish a thorough examination with the Respirometer will be charged five dollars. The Respirometer declares the exact condition of the lungs; and patients can readily learn whether they are curable or not. But I desire it to be distinctly understood, that the value of my medicines depends entirely upon their being taken strictly according to direction.

In conclusion, I will say, that when persons seek my medicines, and their systems are brought into a healthy condition thereby, they are not so liable to take cold; yet no one will disregard fresh air, and sleep in a sufficiency of it, can escape the liability of greater or less irritation of the bronchial tubes.

Full directions in all languages accompany my medicines, so explicit and clear that any one can use them without consulting me, and can be bought from any druggist.

ITS GREAT RECOMMENDATIONS are, its simplicity, requiring no attention, as the signal that the coffee is ready for the table, is announced by the

"WHISTLE,"

and the fact that the entire strength is extracted and its

Aroma Wholly Preserved,

thus saving in a short time an amount of coffee equal to the cost of the Pot.

Scientific experiments have been made with a great number of the most approved varieties, the result of which proves that not less than one half the strength of the Coffee remains in "the grounds," but this is extracted by the

THE REASONS FOR WHICH ARE

First—Its peculiar formation.

Second—The signal that it has been boiled a sufficient time, which cannot be misunderstood.

Third—The settling the Coffee.

WOULD invite attention to the "Combination Suction Plates," said by competent Dentists to be the greatest improvement in Mechanical Dentistry in thirty years. Insuring perfect security against rocking, moving or falling. Preventing particles of food from working under, and the amount of suction increased at least ten times over any plate in use. Equally applicable to the most difficult mouths or to partial sets.

He is also using a new base for Artificial Teeth, which promises to be incomparably superior to rubber. Combining strength, beauty and cleanliness with perfect freedom from taste or smell. n3y21

Scientific & Popular Medical Works

—ON—

Manhood, Womanhood, and Nervous Diseases,

PUBLISHED BY THE

PEABODY MEDICAL INSTITUTE,

No. 4 Bulfinch Street, BOSTON,

(Opposite Revere House.)

DR. W. H. PARKER, Assistant Physician.

Medical Knowledge for everybody. 250,000 copies sold in two years.

A Book for every Man.

THE SCIENCE OF LIFE, OR SELF-PRESERVATION. A Medical Treatise on the Cause and Cure of Exhausted Vitality, Premature Decline in Man, Nervous and Physical Debility, Hypochondria, and all other diseases arising from the Errors of Youth, or the Indiscretions or Excesses of mature years. This is indeed a book for every man. Price only $1.00. 300 pages, bound in cloth.

A Book for every Woman,

Entitled SEXUAL PHYSIOLOGY OF WOMAN, AND HER DISEASES; or, WOMAN TREATED OF PHYSIOLOGICALLY AND PATHOLOGICALLY, from infancy to old age, with elegant Illustrative Engravings. 250 pages, bound in beautiful French cloth. Price $2.00.

A Book for Everybody.

Flattered by the reception of, and great demand for, the above valuable and timely treatises, and also to meet a great need of the present age, the author has just published a new book, treating exclusively of NERVOUS AND SEXUAL DISEASES. 150 pp. cloth. Price $1.00, or each book on receipt of $3 for the other two books, postage paid.

There are, beyond all comparison, the most extraordinary works on Physiology ever published. There is nothing whatever that the Married or Single, of Either Sex, can either require or wish to know, but what is fully explained, and many matters of the most important and interesting character are introduced to which no allusion even can be found in any other works in our language. All the New Discoveries of the author, whose experience is such as probably never before fell to the lot of any man, are given in full. No person should be without these valuable books.

"Valuable Books.—We have received the valuable medical works published by the Peabody Medical Institute. These books are of acted merit, and should find a place in every intelligent family. They are not the cheap order of abominable trash, published by irresponsible parties, and purchased to gratify coarse tastes, but are written by a responsible professional gentleman of eminence, as a source of instruction on vital matters, concerning which lamentable ignorance exists. The important subjects presented are treated with delicacy, ability, and care, and, as an appendix, many useful prescriptions for prevailing complaints are added."—*Coos Republican, Lancaster, N. H.*

"The author of these books is one of the most learned and popular physicians of the day, and is entitled to the gratitude of our race for these valuable productions. It seems to be his aim to instruct men and women to avoid the cause of those diseases to which they are subject, and he tells them just how and when to do it."—*Chronicle, Farmington, Maine, Sept. 7, 1869.*

☞ Either book sent by mail on receipt of price.

N. B. The Author of the above-named medical works is the Chief Consulting Physician of the Peabody Medical Institute, and is so constantly employed in consultation with invalids from all part of the country, that he has no time to attend to mere business details. Therefore all letters should be addressed to the PEABODY MEDICAL INSTITUTE, Dr. W. H. PARKER, the Medical Assistant of the Author, and his Business Agent, who, as well as the Author himself, may be consulted on all disease requiring skill, secrecy and experience.

WIT AND HUMOR.

"You look as though you were hostile yourself," as a wag said to a fellow who was standing close to a donkey.

"I'm sitting on the style, Mary," as the fellow said when he coolly sat down on his sweetheart's new bonnet.

"I have very little respect for the ties of this world," as the chap said when the rope was put around his neck.

"By Jove!" said a man, viewing a revolving light, "the wind blows that light out as fast as the man can light it."

A clever fellow last week conceived the idea that could he fly, climbed a tree, waved his hand grandly and struck out. Somehow, the ground sprang up and hit him; and he crawled into the house, convinced that flying was not his forte.

The University Medicines

are not patent medicines, but be Favorite Prescriptions of the New York Medical University, an Incorporated Institution of the State, and are prepared in accordance with the views of a number of distinguished living American practitioners, who believe that the time is come when educated physicians should arise and make a decisive effort to overthrow the all-destroying system of quackery prevailing in this country and city, and substitute scientific, reliable remedies, made in accordance with the principles of Medical Chemistry—in place of the ignorance or dangerous patent Medicines flooding the country.

A knowledge of Medicine and Chemistry, as profound as that of any physicians that have ever lived, enables us to warrant these Compounds to be the most perfect remedies for disease ever placed before the people. What may seem almost incredible is the startling rapidity with which they cure diseases that have defied all remedies.

They are combined, with great care, from the purest materials, with a true knowledge of their therapeutic powers and physiological effects. Nothing injurious or poisonous, has been tolerated in their composition.

They are the most prescriptions of a body of eminent American professors, and have been thoroughly tested in one of the most extensive and successful practices of the day.

The University Medicines

are now sweeping the country from Maine to California, displacing the leading Health Restoratives, and daily superseding the old poisons, nostrums, and quack drugs, and their sale is becoming enormous. They are now regularly prescribed by over [illegible] physicians.

No Forged Certificates Required.

The medicines ever originated have received so many unsolicited certificates of cures in so brief a space of time. We are daily receiving letters from every part of the country, from patients and physicians, describing the most astonishing cures performed by these remedies. Many of these cases had been considered beyond the power of cure. We wish that we could publish these letters for the encouragement of the afflicted, but a book of 1,000 pages would not contain them.

From our Letter-Files.

In order to convince the skeptical, we this day publish the following opinions selected from many that are voluntarily given by intelligent, respectable people who have used the UNIVERSITY MEDICINES themselves, or in their families, as a moral guarantee that these magnificent remedies are totally unlike the patent nostrums of the hour.

SS.—Personally appeared before me, J. W. Scott, President; L. Hasbrouck, Vice-President; John G. Howard, Treasurer; and George Fowell, Secretary of the New York Medical University, and made oath upon the Holy Evangel of Almighty God, that the following are genuine, unsolicited extracts, taken from original letters being daily received at the Institution. WM. H. RIBLET, Notary Public,
Corner Ninth street and Fifth avenue, New York.

SURGEON GENERAL'S OFFICE,
WASHINGTON, March 10, 1869.

Professors—Please forward my second order for UNIVERSITY MEDICINES. I am pleased to say that I have found them of great service in the treatment of patients under my charge.

——, A. A. Surgeon, U. S. A.

280 Commercial St., Portland, Me., May 5, 1870.

Professor Scott and Associates—The UNIVERSITY MEDICINES are rapidly revolutionizing the practice of medicine in Maine. * * * I have over five hundred patients. * * * Here, in Portland, I have taken away two-thirds of the doctors' patients. * * * I have nearly two hundred agents, and am establishing ten agencies a day. * * * I shall sell $100,000 worth of UNIVERSITY MEDICINES in Maine this year. * * * I am worn out with hard work. * * * I enclose you a number of certificates of great cures. * * * I will pay $1,000 if one of them can be found that is not genuine. * * *
P. STAPLES, State of Maine Agent.

MOBILE, Ala., May 2, 1870.

Gentlemen—Send us a full line of your goods by steamer as soon as possible, as we intend to make the sale of the UNIVERSITY MEDICINES a specialty, having more confidence in their curative properties than any medicines we have ever sold. In fact, we have the most unbounded belief in them, and always recommend them to our customers in preference to all others we have ever known. We have recently made some astonishing cures in Mobile of Scrofula, Catarrh, Kidney Diseases, etc., with your Cancer-Plant, Lithia, Specific, etc.
L. D. & B. G. GOULD,
Druggists, thirty-five years' standing.

From a distinguished member of Congress.
WASHINGTON, May 4, 1870.

My Dear Doctor—Your medicines seem to act favorably on the nerves, as well as the blood. * * * I am much improved. * * * My limbs are wonders of medical science. * * * I have every faith in your medicine and skill. * * * I believe that you are enlightened of God to do a great work, and that you will do it. * * * You have done a great deal for me. * * * You understand your business. * * * You are the second physician whom I have confidence in. * * * I would not treat the blockheads down here to give physic to my horse. * * *

BLAIRSVILLE, Pa., April 18, 1870.

To Professor Scott—Enclosed please find sketch of the case of William Carson, of this place, aged 43—Disease, indurated scrofulous ulcer of the right leg, painful and gangrenous, of 25 years' standing. It had exhausted all the skill of numerous physicians during that time.

This terrible picture was his condition on the 1st of February, 1870.

By the use of the Cancer Plant Extract, Healing Blood-and-Bone Ointment, and May-Apple Pills, he is now entirely cured.

This case has attracted remark and amazement.—He being a poor man, and one turned out to die, the medicines were furnished at cost, $18.

Besides, your Five Minute Pain Saver and Neuralgo-Rheumatic Elixir have straightened his neck, drawn to an angle of 45 degrees.

I took him in hand, while all the doctors laughed at me, and considered it a good joke to attempt to cure this poor man; but, thank God, I have cured all his maladies, restored his strength, and made him a well person with the UNIVERSITY MEDICINES.

I think, Doctor, that God has inspired you to bring forth remedies for the cure of His afflicted children that nothing in the shape of medicines has yet approached.
SAMUEL E. GREEN.

1,536 THIRD AVENUE, New York, June 23, 1870.

Professor Scott and Associates—It is truly gratifying to know that science has at length triumphed over quackery. I have been using the UNIVERSITY MEDICINES in my regular practice for some time with the most remarkable success. Disease of every character rapidly succumbs to their healthful influence. You are evidently destined to overthrow the old practice of medicine.
CHAS. K. DRAPER, M. D.

Dr. Scott, &c.—For years I have suffered with Cancer of the breast. What my sufferings were, tongue can never tell. In a dying condition I came to you, and commenced using your Cancer Plant and Ointment. Almost immediately, all pain ceased.—The tumor has vanished, and through the providence of God, I am a well woman. In my deep gratitude, and from a sincere interest in the welfare of those similarly afflicted, I shall be pleased to answer all questions.
New York, Oct. 19, 1869. Miss E. CAREY.

Three bottles of your Hydrated Oxymel cured me of Consumption, although our Bridgeport physicians said that I could not be cured.
GEORGE D. REYNOLDS.
Metallic Cartridge Company, Bridgeport, Conn.
March 1, 1870.

Professor Scott—Through the recommendation of C. W. Huntington, Esq., of Hartford, who has successfully used your Lithia as a remedy for disease of the Kidneys and Liver, I am induced to order some.
Unionville, Conn., Jan. 1, 1870. L. M. MASON.

Dr. Scott—Three months ago, I was attacked with Heart Disease. Our family physician pronounced it Neuralgia of the heart, and prescribed medicine without benefit. He also ascertained that I was afflicted with that awful disease, Spermatorrhœa. I forthwith obtained your Ethereal Phosphorus, and after taking four bottles was completely restored. Afterward I had pain in my back, which your Lithia cured. My oldest boy had the skin disease—Herpes—and doctored five years without relief. I gave him two bottles of your Cancer Plant Extract, and, thank God, he is well.
WASHINGTON TYSON,
Pottstown, Pa., Jan. 5, 1870.

Derby, Conn., Jan. 21, 1870.

Dr. Scott—I came to the conclusion that you were trying to cure people, which is more than most Doctors do nowadays. I got a bottle of Lithia for my wife's kidney disease, which none could cure, and I found it helped her immediately. D. CAMP.

Towanda, Pa., April 11, 1870.

Dr. Scott—I have used your Extract of Cancer Plant for the blood, and pronounce it the chief of alteratives. A. N. NELSON.

165 North Main St., Providence, R. I.

Professors—Some of my friends and myself have tried the UNIVERSITY MEDICINES, and found them satisfactory beyond our expectations.

From the well-known eminent Dr. Buckler Jones:
Baltimore, Md., Oct. 17, 1869.

I have a lady under my care with Cancer in the left breast. I recommended her to use your remedies, and with the most marked benefit and decided improvement in every respect.
J. BUCKLER JONES, M. D.

, Ashland, Pa., 1870.

Dear Sirs—I have prescribed your Hydrated Oxymel for Bronchitis, and the Yellow Jessamine for Heart Disease, with great benefit, and am convinced of their efficacy. DR. JOHN B. KENNEDY.

Newport, R. I., Jan. 14, 1870.

"To Triumphe" should be the motto of your medicines. They have cured me after all our Newport physicians have failed. J. W. TILLSON.

76 Temple St., Hartford, Jan. 19, 1870.

Dr. Scott & Co.—Four bottles of your Ethereal Phosphorus have acted very strengthening to my system. R. RINZEL.

VERNON, Conn., May 4, 1870.

Doctors—I obtained eight bottles of your Ethereal Phosphorus for Spermatorrhœa. I am using it according to instructions, and feel a marked improvement. The lustre of my eyes has returned, and my whole countenance is brighter. It is slowly but surely curing me. Thanks to your wonderful medicine, it is helping me in many ways, etc., etc.
E. L. RISLEY.

FAIRFOWL, Iowa, March 5, 1870.

Gentlemen—Your Katalpa Extract works magically. There is nothing equal. I have been afflicted with sick headache and liver complaint since last spring. Took three doses of your Headache Pills and can say they have cleaned my head out as clear as a bell. I gave the balance away, saying: "Gentlemen, be convinced—I am." Dr. McKENNA.

YARMOUTH, Me., May 8, 1870.

Doctor—My mother is taking your Cancer Plant for Dropsy. Two bottles have done her more good than three years' doctoring from the best physicians of this place. * * * I hope the Lord will continue to prosper you in the good work.
Mrs. SARAH A. WITTON.

98 MARKET St., Pittsburgh, Pa., July 1, 1870.

Professor Scott—Although dispensing the UNIVERSITY MEDICINES but a short time, I am confident that where they are given a fair trial they will work wonders as cures of disease, and give general satisfaction. All the remedies are proving successful, and my practice is rapidly increasing.
J. M. YOUNG, M. D.

OPTICIAN BLANCHARD HOUSE CO.,
Palmer, Mass., May 5, 1870.

Professors—The University Medicines are effecting some remarkable cures here. Send me one dozen of Cancer Plant and Chemical Ointment.
A. B. CHAPMAN, Secretary.

PHILADELPHIA, June 28, 1870.

Professors—We have just been handed a bottle containing a piece of tapeworm, 18 feet 8 inches in length, which was brought away by the use of one bottle of Cancer Plant and the May-Apple Pills.

We also have just cured a lady of gravel of many years' standing, by using Lithia and Alkaline Resolvent. JOS. C. HARBOLD.

I find the UNIVERSITY MEDICINES work like a charm in my practice.
W. WATERVILLE, Me. W. H. HOBS, M. D.

And thousands upon thousands of others. Can any other medicines show a similar record?
